SOLDIER BOYS IN FINE CAMP

Tennessee Lads Now Stationed At Camp Pershing Near Eagle Pass, Texas.

El Paso, Texas.—Tennessee's national guard troops on this part of the Mexican border are now assembled in Camp Pershing. They have their tents all up, kitchens set up and are as much at home as the oldest camp-comrades in the big mountain camp after being given two days in which to set up camp and get their things arranged and to get a first glimpse of El Paso and Mexico.

The cavalry, hospital corps and ambulance corps are down to routine drills, maneuvers and other articles of war scheduled in general orders issued by Gen. Bell. The Tennessee troops witnessed the long parade of 30,000 infantrymen through the city and camps.

All are in good health and spirits and are enjoying their experience on the border.

The Tennessee troops have been transferred to the border. The troops are stationed at Eagle Pass, Texas, about twenty miles inland from the Rio Grande. The Tennessee boys took the places vacated by the Pennsylvania and New York troops, ordered home.

Ordering out of the Tennessee troops is in line with the department's policy of giving all of the guardsmen called into the federal service a tour of duty on the border under war conditions before they are mustered out.

The Anticlimax.

The revival meeting was tense in its interest, and the evangelist was waxing eloquent. He arraigned the laxness of the church people and pressed on day after day, in general, and every one was too absorbed to notice the growing uneasiness of two lads on the front seat.

With the question, "What's the matter?" pronounced in tones of thunder, the preacher reached his climax.

The two boys had risen and were starting for the door. One of them hearing the preacher's question, wheeled and said: "Aw, I got the nosebleed."—The Christian Herald.

"Women, once they get interested in our movement," she said, "dress more sensibly. They give less thought to dress. I may claim, in fact—"

Mrs. Covles smiled.

"I may claim, in fact," she ended, "that these women start making their own clothes and stop picking their friends' clothes to pieces."

Aquitted.

"The sheriff tells me," remarked a visitor to a western town, "that there hasn't been a prisoner in the county jail for over a year. That would seem to indicate that your community is unusually free from crime."

"Not necessarily," replied the native. "We've got some pretty slick lawyers around here."

CALOMEL MAKES YOU SICK, UGH! IT'S MERCURY AND SALIVATES

Straighten Up! Don't Lose a Day's Work! Clean Your Sluggish Liver and Bowels With "Dodson's Liver Tone."

Ugh! Calomel makes you sick. Take a dose of the vile, dangerous drug to-night and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful tonight and if it doesn't

straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Adv.

Had Learned His Lesson.

After one of the reservations had been opened, the white community was annoyed by the promiscuous swarming of the noble red man, numbers of whom seemed quite unaware of the strength of their recently acquired vocabulary. This condition became so intolerable that several arrests were made and jail sentences imposed. It was not long before the native sons of America realized that swearing in public was a very bad business, and they utt. One of these Indians was a witness in a case of some importance in the local justice court, and had testified to certain facts which greatly exasperated counsel for defense. With his hand upraised the lawyer impressively thundered: "Now, Nick, will you swear?" "No," shouted the Indian. "Me no swear! Swear talk no good here—getum jail!"

"I did," said the policeman. "It was your own fault."

"I'm not asking whose fault it was, I'm asking you did you see that."

"I did not," said the policeman, turning his back.

Imparting Information.

The British soldier will make a joke even against himself. An elderly lady in a bus noticed the initials "R. D. C." on a soldier's tunic. She puzzled her brains, but could not solve the mystery as to their meaning. At last her curiosity overpowered her and she asked what they stood for. "Reformed Drunkards' corps, ma'am," said the soldier gravely. "Dear me," said the lady, "how very interesting." And probably not one of those who laughed at the reply could have explained what "R. D. C." really means.—London Chronicle.
